As a homeowner on county road 521 I would like those making the final decision on this project to consider the loss of property value this will manifest on us. There are other paths that this line could be installed on - like going north and west on Hwy. 69 or the power line grouping that goes south thru the old power plant in Walsenburg. With power come responsibility to "do no harm" - and it goes without any argument that this line will devalue the property.

Would you like it to cross your land...? Then you do understand!!

I-183-001: Socioeconomic Resources (In Review)

Your email/letter/comment form has been received and your comment noted. Potential impacts to social and economic resources from the proposed project and mitigation measures will be addressed in the Environmental Impact Statement.

The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at

<http://www.usda.gov/rus/water/ees/ea.htm>.
